RE: Petition #3541101

Dear Mr. Smith:

The staff of the Division of Gaming Enforcement's (Division's) Regulatory Enforcement Bureau has reviewed the sample set of value gaming chips manufactured by Chipco International and received in this office on January 18, 2012. Specifically, RIH Acquisitions NJ, LLC d/b/a ACH seeks sample approval of primary and secondary sets of value gaming chips.

A review of Petition #3541101 and associated exhibits included an assessment of: a schematic design information showing front, back and edge design features of each denomination of value chip and non-value chip, primary and secondary color information of each denomination of value chip, back-up rack and non-value chip, specifications as to chip inlay, chip diameter information including separate diameter information for chips having denominations of \$500.00, \$1,000.00 and \$5,000.00, permanent name, location and value on both the front and back of each value chip, information as to graphics and other measures designed to prevent counterfeiting of each value chip, and the name of the

game "Roulette", the design and licensee's name of the non-value chips. The Division's review found these items to be acceptable.

Based upon a physical review and analysis of a sample of each chip submitted to the Division for such review and having conducted a physical inspection of the sample chips utilizing a Closed Circuit Television System, the chips are acceptable for use with the exception of the 50 cent brown gaming chip and the entire set of non-value gaming chips. After discussions with the Petitioner, it was agreed upon that an amendment to Petition #3541101 will be submitted describing the new primary color for the proposed 50 cent gaming chip to prevent possible conflict with previously approved colors. Additionally, the non-value gaming chips will be re-submitted with a new edge design and a possible color change.

Should you have any questions regarding the foregoing, please contact Lauren Goukler or Tadd Hansen of my staff at (609) 441-7529.

Sincerely,

Don Errera, Deputy Chief  
Regulatory Enforcement Bureau
